Le Thanh Vinh

Frontend Developer Web

Dob: 09/10/2003
Gender: Male
Phone: 0941056340
Email: lethanhvinh.dev@gmail.com
Website: https://portfolio-lethanhvinh.netlify.app/
Address: Bien Hoa, Dong Nai

OBJECTIVE

Graduated with Distinction in Information Technology Engineering, backed by a strong foundation in web development. Experienced as a Front-end Developer Intern with hands-on practice in building real-world applications using **HTML5, CSS3, JavaScript, TypeScript, React.js, and Next.js**.
Skilled in developing responsive interfaces, integrating RESTful APIs, optimizing SEO and performance, and deploying applications on Netlify. A proactive learner with a high sense of responsibility, eager to commit long-term to constructing high-quality web products that deliver real business value.

EDUCATION

2021 - 2026

Dong Nai Technology University (DNTU)
Information Technology Engineer

- GPA: 3.2/4.0
- English: B1
- CCNAv7: Introduction to Networks

WORK EXPERIENCE

2025 - 2026

HINOVA Company Limited
Frontend Developer Intern
DIGITAL LIBRARY MANAGEMENT SYSTEM
Website: https://thuvienso-online.netlify.app/
Project Description
Developed a modern digital library management platform featuring an administrative dashboard for managing books, users, and library operations. The system implements role-based access control, interactive data visualization, and a responsive user interface optimized for multiple devices.
Technologies
Frontend: Next.js 15 (App Router), TypeScript, Tailwind CSS, shadcn/ui, Framer Motion, Recharts
State Management & Validation: Zustand, React Hook Form, Zod
Deployment: Netlify
Roles & Responsibilities

- Developed a responsive administrative dashboard using Next.js 15 App Router, featuring a collapsible sidebar and dynamic breadcrumb navigation.
- Implemented a role-based access control (RBAC) system for Admin, User, Librarian, and Leader roles, including protected routes and authentication state management with Zustand.
- Designed and developed interactive analytics dashboards using Recharts, while enhancing user experience with smooth animations powered by Framer Motion.
- Applied TypeScript in **Strict Mode** to improve type safety, maintainability, and overall code quality.
- Built reusable and scalable forms using React Hook Form and Zod for efficient form handling and robust input validation.
- Developed responsive user interfaces with Tailwind CSS and shadcn/ui, ensuring seamless compatibility across desktop, tablet, and mobile devices.

PROJECTS

2024 - 2025

Printing E-Commerce Website
Fullstack
INK ZÍNH® PRINTING E-COMMERCE PLATFORM
Website: https://inkzinh.netlify.app/
Project Description
Developed an e-commerce website specializing in printing paper, business cards, calendars, and custom printing products. The website features category-based product browsing, a fully responsive design, and SEO optimization to enhance search engine visibility and user experience.
Technologies
Frontend: Next.js, TypeScript, Tailwind CSS
Services & Deployment: SendGrid, Netlify
Key Responsibilities

- Developed a responsive e-commerce website using Next.js, TypeScript, and Tailwind CSS with a scalable component-based architecture.
- Built dynamic product and category pages using the Next.js App Router, supporting **15 product categories** and **over 30 products**.
- Implemented SEO best practices and web accessibility standards to improve search engine visibility and enhance the overall user experience.
- Designed and developed RESTful APIs, integrated SendGrid for email functionality, and utilized the Fetch API for communication between the frontend and backend.
- Built reusable UI components and optimized the user interface for seamless performance across desktop, tablet, and mobile devices.
- Deployed and maintained the application on Netlify while leveraging TypeScript to improve type safety, code quality, and long-term maintainability.

TECHNICAL SKILLS

Programming Languages:	HTML5, CSS3, JavaScript (ES6+), TypeScript
Frontend:	React.js, Next.js (App Router), Tailwind CSS, Responsive Web Design, shadcn/ui, Framer Motion, WordPress
Backend:	Node.js, NestJS (Basic), RESTful API Development, MongoDB
Tools & Deployment:	Git, GitHub, Netlify, Postman, VS Code, Vercel
Other	Responsive Web Design, SEO, Accessibility, Performance Optimization
Teamwork	Collaborate effectively with team members and cross-functional departments to achieve project goals and deliver high-quality solutions.
Problem Solving	Strong analytical and problem-solving skills with the ability to identify root causes, troubleshoot technical issues, and implement effective solutions.
Time Management	Able to prioritize tasks, manage time efficiently, and consistently deliver work on schedule in a fast-paced environment.
English	B1 English proficiency with the ability to read technical documentation and research technology-related resources.
