OBJECTIVE

IT Support / Technical Support Specialist with a Bachelor's degree in IT (GPA 3.2) and hands-on experience in technical customer support, hardware/software troubleshooting, and web applications. Proven track record at CellphoneS in assisting users with software issues and cross-device technology solutions. Eager to leverage strong problem-solving skills, CCNA networking knowledge, and a customer-centric mindset to manage ticketing systems, adhere to SLAs, and deliver exceptional support across flexible shifts at Tinh Van.

EDUCATION

2021 - 2026

Dong Nai Technology University (DNTU)
Information Technology Engineer

- GPA: 3.2/4.0
- English: B1
- CCNAv7: Introduction to Networks

WORK EXPERIENCE

06/2026 - 09/2026

CELPHONES
Technical Support / Software Technician

- Provided direct technical and software support for retail customers across various technology devices, including smartphones, laptops, smartwatches, and IT accessories.
- Diagnosed and resolved operating system errors, software bugs, application installations, data backup/transfer, and network connection issues.
- Consulted and guided customers on essential product features, optimizing user experience with a strong customer-centric service attitude.
- Handled initial customer inquiries, analyzed technical problems, and coordinated with hardware repair/warranty departments to ensure timely problem resolution.

10/2025 - 03/2026

HINOVA Company Limited
Frontend Developer Intern
DIGITAL LIBRARY MANAGEMENT SYSTEM | *Frontend Developer Intern*
Website: https://thuvienso-online.netlify.app/
Tech Stack: Next.js 15, TypeScript, Tailwind CSS, Zustand, REST API, Netlify

- **Project Scope:** Co-developed an administrative dashboard platform featuring Role-Based Access Control (RBAC), user/book management, and interactive operational analytics.
- **Key Support & Dev Tasks:**
    - Implemented authentication and multi-role permission systems (Admin, User, Librarian) to ensure secure system access and smooth user workflows.
    - Handled frontend-backend API integration, form validations, and state management using Zustand and React Hook Form.
    - Conducted UI/UX troubleshooting, cross-device testing, and resolved interface/responsive bugs to optimize system performance and end-user experience

PROJECTS

2024 - 2025

Printing E-Commerce Website
Fullstack
INK ZÍNH® PRINTING E-COMMERCE PLATFORM
Website: https://inkzinh.netlify.app/
Project Description Developed an e-commerce website specializing in printing paper, business cards, calendars, and custom printing products. The website features category-based product browsing, a fully responsive design, and SEO optimization to enhance search engine visibility and user experience.
Technologies

- **Frontend:** Next.js, TypeScript, Tailwind CSS
- **Services & Deployment:** SendGrid, Netlify

Key Responsibilities

- Developed a responsive e-commerce website using Next.js, TypeScript, and Tailwind CSS with a scalable component-based architecture.
- Built dynamic product and category pages using the Next.js App Router, supporting 15 product categories and over 30 products.
- Implemented SEO best practices and web accessibility standards to improve search engine visibility and enhance the overall user experience.
- Designed and developed RESTful APIs, integrated SendGrid for email functionality, and utilized the Fetch API for communication between the frontend and backend.
- Built reusable UI components and optimized the user interface for seamless performance across desktop, tablet, and mobile devices.
- Deployed and maintained the application on Netlify while leveraging TypeScript to improve type safety, code quality, and long-term maintainability.

TECHNICAL SKILLS

IT & Support Operations	Technical Support, Software/Hardware Troubleshooting, Ticket Management, SLA Adherence, Customer Service Mindset, Shift Flexibility
Networking & Systems	React.js, Next.js (App Router), Tailwind CSS, Responsive Web Design, shadcn/ui, Framer Motion, WordPress
Backend:	CCNA Concepts (TCP/IP, LAN/Wi-Fi, DNS, DHCP), Windows/macOS/Linux OS, Computer Hardware & Peripherals
Tools & Deployment:	Git, GitHub, Netlify, Postman, VS Code, Vercel
Development & Tools	RESTful API (Basic/Postman), HTML5/CSS3/JavaScript, Git, VS Code, Database Querying (MongoDB/Basic SQL)
Teamwork	Collaborate effectively with cross-functional departments (Technical, Development, Product) to resolve customer inquiries.
Problem Solving	Strong analytical skills to diagnose root causes, analyze software bugs, and resolve technical tickets within target deadlines.
Time Management	Ability to prioritize tickets based on urgency, manage time efficiently, and ensure continuous support across shift rotations.
English	B1 English proficiency with the ability to read technical documentation and assist users with technology-related issues.
